Complaints received – Case study – Director Penalty Notice (DPN)

A director complained that the ATO had issued an excessive Director Penalty Notice (DPN). Attempts to resolve the complex issue through multiple channels had failed.

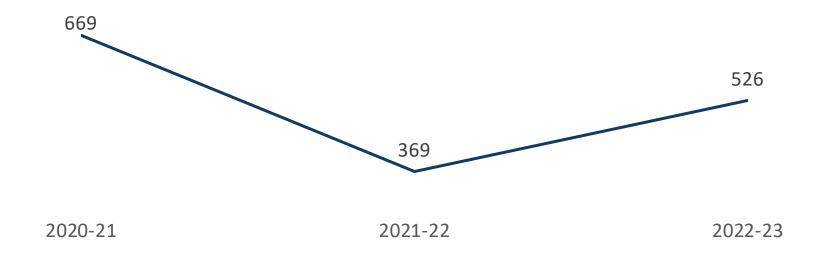

The company had been de-registered. The director was also not authorised to discuss company details with the ATO.

The IGTO found that the ATO had made errors in their calculation of the company debt and hence the DPN.

The ATO agreed to review the director's information, acknowledge the errors and support an application for a debt waiver from the Department of Finance to reduce the debt.

Total Complaints – Q1 comparisons

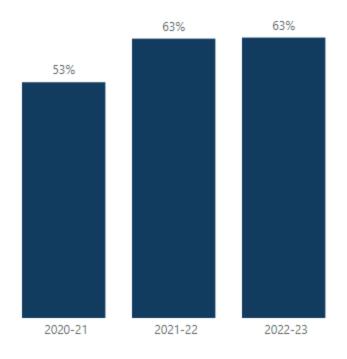

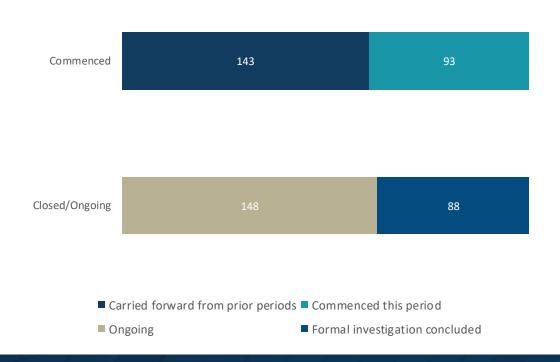

- Complaints received in FY23 (Q1) are more than FY22 (Q1), but still lower than earlier years.
- Reductions relate to non-complex complaints received (especially complaints where the ATO has no record of the complaint. These complaints are transferred back to the ATO for an initial investigation).
